Professional Summary Mechanical Power Engineering student specializing in MEP systems, with hands-on training in HVAC design and building services. Skilled in using Revit, HAP, and Elite software, with knowledge of ASHRAE and NFPA codes. Seeking an entry-level opportunity to apply technical skills and contribute to real-world engineering projects..

Education **Bachelor of Mechanical Power Engineering**
Future Academy in Mansoura
Year Of Graduation Graduation: 2026
Graduation Project:
Enhancing the Refrigeration Cycle Performance Using PCM

Professional Experience **HR Member**
Breaking Point Team – Mansoura University
2024 – 2025

- Assisted in recruitment and screening processes for new members
- Conducted interviews and evaluated candidates
- Organized team activities and internal events
- Improved communication and coordination within the team

Engineering Training **MEP Trainee**
Eng.x - Egypt
Feb 2025 - Oct 2026

- Completed MEP Diploma (80 hours)
- Studied HVAC, Fire Fighting, Plumbing, and Medical Gas systems
- Worked with Revit, HAP, Elite, and AutoCAD
- Applied codes: ASHRAE, NFPA, IPC, SMACNA, HTM

HVAC Trainee
Daikin - Egypt
April 2025

- Learned VRV systems and their applications in HVAC design
- Compared VRV systems with conventional HVAC systems
- Gained practical exposure during training

Projects

Smart Office Project

- Designed HVAC system using HAP software
- Performed duct and pipe sizing based on ASHRAE standards
- Applied fire fighting system design using NFPA codes
- Worked on plumbing system design based on IPC standards

Smart Office Project

- Designed HVAC and medical gas systems
 - Applied ASHRAE standards for cooling load calculations
 - Worked on fire fighting system based on NFPA codes
 - Designed plumbing system using IPC standards
